AUTOMOTIVE SHELL KEYS

A new intergrated remote key is expensive. These shells permit you to offer your customers a much less expensive alternative. You can remove the electronic board from the broken key, place it in the new shell, duplicate the key and have the customer on their way in minutes while saving them big money and adding to your profits. Replacement keys are currently available for Chrysler, Toyota and Lexus products shown below. Shells only - no electronics included.

Thumb-Lite is a convenient way to provide extra light when needed.

THUMB-LITE

Thumb-Lite's compact design provides an easy way to turn anything into a flashlight. Whether unlocking a car door, or finding something dropped in the dark, Thumb-Lite is a convenient way to provide extra light when needed.

One Thumb-Lite per card.
24 cards per display box.
One clip strip per box.

- High strength adhesive • Long-life lithium batteries •
- Super bright white LED • Patented technology • 100% recyclable •
- Water resistant • Virtually indestructible •

Easy Operation: Unlike other compact lights, Thumb-Lite can be used effortlessly with one hand. Designed to be used the way a person naturally grips an object, Thumb-Lite is easily activated and shines light in the direction the object is pointing. No tools or assembly are required. Just pull the adhesive protector and stick it on a key or other object - it's that easy. Because of its small size and advanced adhesive, Thumb-Lite sticks to any size key.
