KEYING ACCESSORIES FOR KWIKSET

KW-81467 Cylinder Removing Tool for KW-1850 Cylinders.

KCT-2

Cylinder tool for Kwikset 400 Series locks. Quickly removes cylinder from lock. Removes cylinder retaining clips. Handle is following tool with master wafer unload feature.

KW-83283

Red plastic learning tool for SmartKey® cylinders.

KW-20622

Steel learning tool for SmartKey® cylinders.

KW-83260 SmartKey® (SMT) Reset Cradle

The SmartKey Reset Cradle is a tool used to repair a SmartKey cylinder that has been programmed incorrectly. This can occur if the cylinder will not turn in either direction. Simple and easy to use. Simply remove the lock from the door, remove the SmartKey cylinder plug, insert into the reset cradle and the cradle will reset the cylinder to learn a new key. A must have for landlords or where there is a high possibility of lost keys.

See above for "How to re-key a SmartKey cylinder".

EASILY RE-KEY IN 3 SIMPLE STEPS:

- 1 Insert functioning key & turn 1/4 turn clockwise.
- 2 Insert & remove the SmartKey learn tool. Remove functioning key.
- 3 Insert new key and turn 1/2 turn counter-clockwise. Your lock is now re-keyed!

You must have your functioning key & your SmartKey tool for the system to work.

SmartKey Tool + Functioning Key
