Yale

	Knob Function#	Lever Function#	Operation
PASSAGE	\$5401		For doors that do not require locking. Either knob/lever operates the latchbolt at all times.
PRIVACY	—	\$5402LN^F	For lavatory or other privacy doors. Either lever operates latch bolt unless outside lever is locked by pushbutton inside. Button automatically releases when inside lever is turned or door closed. Emergency key inserted and turned in hole in outside lever will unlock door. Inside lever always active.
ENTRANCE	\$5407		For Entrance or Office doors. Latchbolt by knob/lever either side, except when outside knob/lever is locked. When outside knob/lever is locked latchbolt is operated by key outside and knob/lever inside. Outside knob/lever is locked by pushing turn button in inside knob/lever (Automatically releases when inside knob/lever is turned or key is rotated in locking outside knob/lever). Outside knob/lever may be retained in locked position by pushing and rotating turn button, not released until turn button is manually returned to the vertical position. Deadlocking latchbolt.
CLASSROOM		\$5408LN^F	For Classroom, Office or Utility doors. Latchbolt by knob/lever either side, except when outside knob/lever is set by key outside. Knob/lever inside always active. Deadlocking latchbolt.
STOREDOOR *LF only	\$5419*	—	For Store entrance or communicating doors. Either knob operates latchbolt (except when both knobs are locked simultaneously by key in either knob). Deadlocking latchbolt.
COMMUNICATING	\$5421* *LF only	—	For Communicating or Store entrance doors. Either knob operates latchbolt (except when key in either knob locks or unlocks the knob independently of the other). Should be used only on offices or rooms with multiple entry. Deadlocking latchbolt.
ASYLUM *LF only	\$5430*	—	For Utility, Asylum or Institutional doors. Latchbolt by key both sides. Rigid knob/rose both sides for use as pulls. Deadlocking latchbolt.
